CITY GIVES ITS ULTIMATUM.

Kinloch Company Must Comply With Ordinance or Be Sued.

City Counselor Schnurmacher has notified

the Kinloch Telephone Company that unless the company flies statements of its earnings and pays 5 per cent thereon to the city, that its license to occupy the streets with conduits will be revoked.

The general ordinance applying to wire-using companies makes this a condition of the Kinloch contract, and in accepting its provisions the company filed a \$20,000 bond with the Missistipt Valley Trust Company as surety. The reports of half yearly earnings should be made on the first day of January and the first day of July.

Although the attorneys of the Kinloch company have informed Mr. Schuurmacher that they will give his letter their attention it is said that the claim will be made that the company pays at its taxes as other corporations do, and to pay this extra a percent is equivalent to paying an income tax. and pays 5 per cent thereon to the city.

Mr. Bell strived in St. Louis yesterday morning and devoted the entire day to scarching for Shiveley, who was one of his CRAWPORIYS will close to-day, as boyhood friends. He visited the Western Union telegraph office and received two addresses, at neither of which he found life "lerk's office in Clayton in quest of information, but was again disappointed. Last night he invoked the uid of the Police Department in his search, after which he visited the morgue and telephoned to the different hospitals to St. Louis.

RECORDER MAY REMOVE.

Injunction Is Refused-Joke on Investigator's Clerks.

Judge Klein yesterday denied the application for an injunction restraining Reorder of Deeds Hahn from removing his office to the new City Hall. The matter was office to the new City Hall. The matter was passed on by the court in chambers. Attorney G. B. Websier, who filed the suit stated that he would bring the matter before the Supreme Court.

The application was based upon the theory that the Courthouse is the "seat of justice" mentioned in the statute which says that the Recorder of each county shall maintain his office at the seat of justice. It is contended, on the other hand, that by the "seat of justice" is meant the city or town known as the "county seat." The terms "seat of justice" and "county seat" are interchangeable terms, it is chalmed.

An amusing occurrence took place yes-

An amusing occurrence took place yesterday at the Courthouse before it became known that the application for the injunction had been denied. The pulleys of one of the windows of the Recorder's rooms fronting on Broadway neeled repairing, and both of the sashes of the window were taken out to adjust the pulleys. The window is at the end of a long counter, and the rumor gained circulation that it was expected that the Recorder was going to steal a march on the title investigators, who are interested in preventing the removal, and begin removing his office at once. Word was sent to different title investigators by their clerks who were at work at the Courthouse of the window is affairs and his death was not altogether unlevance. their clerks who were at work at the Courthouse of what was taking place. The work of repairing the window was closely watched until the sashes were replaced and the workmen departed, when the title investigators clerks resumed their work.
